I have been using Brady and his team to purchase and refinance for many years now. He consistently delivers on a thorough process, that overly delivers what you need. He is up front, honest, and you can depend on his team to have your back. It's not the easy purchases or refi's that tells the tale. It's when you have difficulty, that their expertise and understanding of the business shines. I would not hesitate to send him any friend or family member because know they will be a professional team you can trust to get you the best deal.

We spoke to many local mortgage brokers explaining our situation and Brady's team was the only one that said they could help us get a house. Matt in his office is AMAZING! He kept us posted on progress during the whole process. Even when we were waiting for our next step, he still checked in with us. Matt was very personable and you can tell he cares about his clients as individuals. He understood the challenges we had in the past and made us feel at ease that they would get the job done and they did! We closed on our house this week. 😊

Thank you again Matt and Brady's team for everything!!

I have worked with Michael Cragwall (Mike) for a while now. I will say he is very understanding and has helped me learn a lot about Mortgages. I plan on purchasing a house soon and would highly recommend him if you are looking to purchase a home or needing financial help on a home.

Choosing a lender is an important step for any buyer in today's real estate market. You need a lender that will communicate well with all parties involved in the transaction, and keep things moving on your schedule. Your lender can make all the difference in your deal going smoothly – or not. The team at American Mortgage Solutions excels at this. Give them a call, you won't regret it.

Brady Webb and Matt were fantastic to work with! They were very patient with me, as my loan situation was complicated and took some time to finalize! Throughout the entire process Matt was with me all the way to explain my best course of action, and to get me the best interest rate. It took me about a year from start to finish, between looking for a home in my price range to rearranging the loan to suit my complicated circumstances! Can't thank them enough!

I'm very glad I chose AMS for my mortgage. I was actually referred to them myself from someone who had used them a couple of years before. My experience with them was great. They answered all my questions, worked very hard to keep the process moving and got me a very good interest rate. I would recommend them to anyone looking at buying a home.
